## OCM - 046 MEDIA

### MACHINE FOR WET & DRY SPRAYED CONCRETE

The OCmer OCM-046 MEDIA allows to process wet, semi-wet and dry mix, besides to transport pea-gravel. The great machine's flexibility both in terms of processed mixes and outputs ranges, allows a very wide field of applications.

The well know and tried rotor working method together with the unique OCmer's hydraulic clamping system of the rotor between the lubricated gaskets guarantee a perfect operation in any working conditions.

The machine can be supplied in the DOSA version with an integrated synchronized dosing unit for the liquid quick setting chemical admixtures. Two digital displays will indicate instantly the concrete and admixture outputs.
