OCM - 060 UNIVERSALE

LARGE OUTPUT MACHINE FOR WET & DRY SPRAYED CONCRETE APPLICATIONS

The OCM-060 UNIVERSALE is a machine for sprayed concrete able to process in large volume both wet & dry concrete mixes. The possibility to mount rotors of different capacity together with the opportunity to regulate at will the machine's output make it a flexible working tool that can be operated both manually and by a spraying arm.

The well know and tried rotor working method together with the unique OCMER's hydraulic clamping system of the rotor between the lubricated gaskets guarantee a perfect operation in any working conditions. Two further hydraulic pistons provide, simply by pressing their special controls, respectively to the feeding hopper's overturns and to the rotor's lifting. In such a way a single man can check and eventually replace rubber gaskets and rotor plates in a very fast way, without efforts and safely.

The machine can be supplied in the DOSA version with an integrated synchronized dosing unit for the liquid quick setting chemical admixtures. Two digital displays will indicate instantly the concrete and admixture outputs.

Weight Kg. 1.400-1.650

CAPACITY OF THE ROTOR IN LITRES	MAX. THEOR. OUTPUT IN M ³ /h	HOSE SIZE	GRAIN SIZE IN MM	DELIVERY DISTANCES		COMPRESSED AIR CONSUMPTION IN M ³ /m AT 4-6 BARS
				HOR/VERT	HOR/VERT	
18	14.8	65X85	20	500/100	60/30	12-21
30	24.66	65X85	20	500/100	60/30	15-24

PROVIDED THE CHAMBERS FILL AND EMPTY COMPLETELY

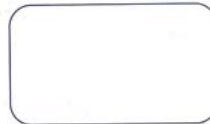

DRIVE

ELECTRIC

Two speeds electric engine: HP=15/11, 3x400 V, 50 Hz;
 Moto-inverter: HP=15,3x400 V, 50 Hz;
 Electric board: EEC NORMS (EN-60204-1;
 EN-60439-1; 73/23/EEC; 93/68/EEC)
 Protection degree : IP55.

PNEUMATIC

Main engine: HP=30;
 Hydraulic power pack engine: HP=4
 Air consumption (engines): 18.000 litres/m at 6-7 bars.
